

Revolve Security: Your Microsoft Sentinel Automation Partner

Revolve Security offers industry-leading automated Microsoft Sentinel deployment and administration services that empower organizations with a range of compelling advantages. By partnering with us you can achieve unmatched scalability, efficiency, and excellence in your security efforts. Position your organization as a leader in the digital security landscape.

Key Advantages

- **Unparalleled Scalability:** Rapidly deploy across multiple Azure tenants and subscriptions simultaneously, effortlessly meeting the dynamic demands of your organization.
- **Time Savings:** Experience a dramatic reduction in the time required to deploy, configure, and receive actionable detections, accelerating your security readiness.
- **Modern Cloud Deployment:** Embrace a modern approach to cloud resource deployment through code, eliminating manual interactions with the Azure portal.
- **Error Elimination:** Rely on automation to eliminate the possibility of human errors in your security configurations, ensuring consistent and accurate deployments.
- **Automated Alert Logic:** Simplify alert logic creation and maintenance with automated lifecycles, staying ahead of threats with streamlined operations and robust alerting.
- **Flexible Data Collection:** Enable resource logging from individual subscriptions into separate Sentinel instances or consolidate data from multiple subscriptions into a central Sentinel instance for comprehensive visibility.
- **Enhanced Outcomes:** Improve customer outcomes and satisfaction with rapid, well-executed deployments, elevating your organization's security maturity and resilience.
- **Azure Resource Utilization:** Drive efficient consumption of Azure resources and cloud storage, optimizing the cloud investment for peak performance.
- **Market Leadership:** Lead the way by facilitating the shift from traditional SIEM vendors to Microsoft Sentinel with Revolve Security, embracing the future of security operations and innovation.
- **Resell Opportunities:** For current Microsoft partners, Revolve Security offers resell opportunities to augment or scale up your services with impressive profit margins, expanding your portfolio with confidence.
